We, the undersigned, members of Group 6, guarantee the following for the final demonstration of our project, “Book Bazar” :

- A video recording that demonstrates Book Bazar being used.
- Allow users to create an account.
- Allow users to delete their account.
- Have textbook matched with course codes and course titles.
- Allow users to make a posting to sell a textbook.
- Allow users to delete an existing posting.
- Verify that users are members of the McMaster University community via their MAC ID (email) before they can make a posting to sell the book or contact a seller to buy a book.
- Be able to scan the UPC (Unified Product Code) of textbooks from an image of the book while making a book posting.
- Provide users with means to contact sellers and discuss book sale.
- Find textbooks using search parameters and filters (such as textbook name, course title, semester, department, term, program, etc.).
- The Book Bazar application will be accessible via a web browser.
